WASHINGTON.

Official Reports Received by the State Department of Mexi- can Outrages.

The Power of the Diaz Government to Maintain Treaty Stipulations and Its Positions on the Subject Awaited With Interest.

A Faber Pusher on the New Orleans Times Wants Pap-Arthur, of New York, Declines the Consulate to Paris.

[Noon Associated Press Report.]
WASHINGTON, October 20.—Ex-Mar-
shal Pitkin, of Louisiana, does not con-
test Wharton's confirmation.

J. Madison Wells, of the returning
board, is here.
It seems that it is not yet determined
that Wayne McVane shall go to the
court of St. James.

On dit, that Colonel Roberts, of the
New Orleans Times, is an applicant
for the third assistant secretaryship of
state.

[Night Associated Press Report.]
The disappearance of ex-Solicitor
Brinkley from Milwaukee is pro-
nounced a malicious hoax.

Samples from whisky in bonded
warehouses must not exceed a pint,
nor be taken without the written con-
sent of the owner.

Senator Cameron, of Pennsylvania,
called on the president to-day.
Collector Arthur, of New York, has
declined the general consulate to Paris.

The house, with Mr. Randall in the
chair, after prayers adjourned to Mon-
day.

Senator elect Pinchback is en route
for Washington, to look after his in-
terests which are being jeopardized by
contestants.

There is a scheme on foot to have
Judge Woods allow himself to be trans-
ferred to the sixth judicial circuit, and
have the fifth circuit filled by a person
native of and residing within the cir-
cuit.

The state department to-day received
official confirmation of the press dis-
patches announcing that the Mexican
local authorities at Matamoros had re-
leased the four remaining raiders upon
the Rio Grande jail. The official re-
ports state that this action was taken
upon a plea that the persons are Mexi-
can subjects, and therefore they de-
cline to extradite them, notwithstanding
the Mexican general government had
ordered them to be surrendered to our
authorities regardless of their nation-
ality.

General Canales, in command of the
Diaz forces at Matamoros, found the
pressure of the local sentiment so
strong that he resigned rather than
execute the order, and further news as
to the power and intention of the Diaz
government to maintain its position
on the subject is now awaited with in-
terest.

Dr. Culver, private secretary to Mr.
Stevens, says, in relation to the mar-
shals of Georgia, decided yester-
day: "It is proper to state that Gen-
eral Gordon did not support the claims
of Mr. Huff against those of Mr. Fitz-
simmons. It is also proper to state
that while several of the delegation
had special and particular friends, yet
Mr. Fitzsimmons was the second
choice of a large majority, and his ap-
pointment gave entire satisfaction to
the whole delegation."

Pike, Brother & Co.

NEW ORLEANS, October 20.—Pike,
Brother & Company's assets are most-
ly in real estate, and is reported larg-
ely in excess of liabilities.

A Town Devastated by Small-pox.

GLENN FALLS, N. Y., October 20.—
Clintonville, Clinton county, is de-
vastated by small-pox. Twenty have died
within a few days. Travelers are pro-
hibited from entering the place and all
highways are blocked.

Steamer on Fire.

SAVANNAH, October 20.—Fire was
discovered this morning amongst the
cotton on board the steamer George
Appold, of the Baltimore line. The
vessel will have to be filled before the
fire can be extinguished.

A Family of Five Poisoned with Ar-
senic Put in a Well.

PORT JENNIS, N. Y., October 20.—
Mr. and Mrs. J. B. Carley and three
children are sick from poison, proba-
bly arsenic, put in a well, as the water
taken from it on analysis shows traces
of arsenic. Part of the family will die.

The Obelisk, It is now Said, Goes to
Trieste.

New York Express: Just as the
gratifying announcement is made that
the munificence of one of our citizens
is to render the transportation of the
one of Cleopatra's needles possible,
there comes along a meddling Austrian
journal to say that the needle in ques-
tion belongs to the city of Trieste, and
will shortly be taken there. Further-
more, it adds, the khedive has prom-
ised the Austrian consul all the needed
assistance in the shape of workmen
that may be needed to get the obelisk to
sea, and the management of the Lloyd
steamship company has volunteered to
furnish a steamer. In the meantime, it
would be interesting to know the name
of the "large-minded" citizen who
was prepared to advance \$100,000 to
have the obelisk set up in New York.

THE CHURCH OF ROME.

The Pope Ceasing to Take an Interest in Affairs, Jealousy Among the Managing Heads of Departments with Threatened Anarchy.

LONDON, October 20.—A special dis-
patch from Rome to the Times, says
the pope's health remains without
change, except for an habitual somno-
lency, which disquiets his physicians.
Although he likes to receive visitors
and is chatty with them, he seems to
have ceased to take an interest in af-
fairs of the church, and invariably
dismisses any one who comes to talk
to him on business.

The affairs of the papacy are now
without any supreme pontifical guid-
ance, being conducted simply by the
heads of the various departments and
by the presidents of the various con-
gregations.

Jealousy reigns among these bodies
and each does as it suits its chief,
the papal government is threatened
with division and anarchy.

Gov. Hartranft Attached as a Witness
in the Riot Cases.

PITTSBURGH, October 20.—Judge Kirk-
patrick, of the criminal court, has
ordered an attachment to issue for
Governor Hartranft and other state
officers, as witnesses in the riot cases.
It is understood the attorney general
will take the case to the supreme court
on Monday.

Beecher and Gillman.

NEW YORK, October 20.—At Ply-
mouth church prayer meeting last
night, Mr. Beecher, referring to the
case of W. C. Gillman, the insurance
scrip broker, who has been sent to the
penitentiary, says, especially hard was
it to see his (Mr. Beecher's) niece, (Mr.
Gillman's wife) go to the lunatic asy-
lum, as she will do this week, and
see also her dear children distributed
among her friends.

The Texas Land Men Organized by
Banks.

ST. LOUIS, October 20.—The Kansas
City Times, in its account of the Texas
land swindle, says one of the largest
banking houses in Austin, Texas, two
Chicago bankers, and two real estate
dealers in Indianapolis and others in
Cincinnati, Cleveland and Pittsburgh
are to be or have been arrested for be-
ing connected with the fraud. It also
says there has been a well organized
system of forgery in full practice in
this western country for the past eight
or ten years.

Officers Elect of the Brotherhood of
Locomotive Engineers.

BOSTON, October 20.—In the conven-
tion of the brotherhood of Locomotive
Engineers the following officers were
elected for the ensuing year: Grand
Chief Engineer, P. M. Arthur; First
Grand Engineer, T. D. Ingraham;
Second Grand Engineer, Wm. Robin-
son; First Grand Assistant Engineer,
S. B. Green; Second Grand Assistant
Engineer, Wm. B. Thrall; Third Grand
Assistant Engineer, George Bennett;
Grand Guide, Thomas Porter; Grand
Chaplain, George W. Tyler.

Episcopal Convention Proceedings.

BOSTON, October 20.—The committee
on the book of common prayer report-
ed that any consideration of the fol-
lowing subjects was inexpedient: To
request the house of bishops to select a
special collection for the burial service
to precede the lesson; a special form of
service for the burial of children;
making the prayer for congress appli-
cable to the legislatures of the differ-
ent states and territories, and the
changes in the rubrics. The report
was adopted.

The subject of providing for the sep-
aration of the services in the prayer
book, taken up on the resolution of
Dr. Adam, of Wisconsin, to recommit
the reported resolution of the commit-
tee on canons on the subject, after
some debate the whole question was
laid on the table by a vote of 116 to 50.

English Cotton Mill Strikers Still
Holding Out.

LONDON, October 20.—The meetings
of the Bolton cotton mill strikers,
which were announced for yesterday,
were declared in some quarters cer-
tain to effect a settlement, but that
was a matter of opinion, and was fal-
sified by the action of the hand mill
spinners. In fact, there is a strong in-
ducement against a settlement, and an
entirely new opposition to the pro-
posed reduction of wages began yester-
day, by a strike of a hundred turners
and piercers in Marnock's Manchester
Street mills, who have not heretofore
been involved. A good deal of dis-
crimination and tight feeling will be
needed on both sides, in order to avoid
a rupture in so delicate and intricate a
task.

Hilderbrand the Guerrilla.

Mexico (Mo.) Ledger: Many of the
newspapers are circulating the report
that Hilderbrand, the notorious guer-
rilla of Southeast Missouri, is still liv-
ing. That this report is without a
shadow of truth we have no doubt.
For two years we lived within a few
miles of his old home, in St. Francis
county, Missouri, and are acquainted
with facts sufficient to justify us in
saying that he is not alive. At the
time we could have given all the par-
ticulars connected with his death,
which occurred, if we remember cor-
rectly, in the spring of 1871, in a small
town in Illinois. As he was killed at
the time referred to by the sheriff and
his deputy, while arresting him, we
think he has been dead ever since.

TURKISH WAR.

Panicky Rumors From Constani- tinople and Sanguine Antici- pations From Russia.

The Decisive Victory of the Russians in Armenia Confirmed—The Otto- man Field Army Lost On-Third of Its Strength.

Russian Batteries Firing in Concentrated Salvos Has Its Effect on Plevna— Russian Reserves to the Front.

[Noon Associated Press Report.]

LONDON, October 20.—The Standard
has the following, dated Tiflis, Thurs-
day: The Russians moved on Kars
yesterday. Siege material has left Al-
exandriople for Kars. Ismael pasha's
army has retired into Turkish territory,
followed by General Turkussakoff. The
Russian garrisons of Ardahan and
Riavares have been ordered to coop-
erate in a general advance.

The Standard has the following from
Poredu: The czar, in addressing the
general staff, on Thursday, declared
that he and all members of the impe-
rial family would remain in the army
to share in the labor and fortunes of
the war and witness the deeds of his
soldiers. He concluded: I, myself,
will care for the wants of the army,
and if necessary, all Russians will, as
once before, take up arms.

The Daily News' correspondent at
Vienna says that a telegram from
Tiflis, states that a column has been
sent south to keep the road from Kars
to Erzeroum.

The Daily Telegraph has a special
from Erzeroum, announcing that large
reinforcements left there last night to
join Mukhtar pasha. It also states
that reinforcements have started from
Batoum.

The second edition of the Times has
a special from Simlitz, dated Octo-
ber 17, which says: "Rain is now fall-
ing heavily, with every appearance of
long continuance. The roads are all
but impassable, and, if the rain con-
tinues, will soon be completely so.
There was never anything like it at
Balakava during the Crimean war.
To-day forty Turkish soldiers, chiefly
Anatolians, deserted from Osman pa-
sha's camp and camp in here under
escort. They declared that they de-
serted because there was so little food
in Plevna; that the men only got one
pound of bread in twenty-four hours;
that there were one hundred and thirty
thousand men in Plevna, who could
only be made to surrender by hunger."

[Night Associated Press Report.]

A St. Petersburg special says an im-
perial ukaz has been promulgated to-
day, ordering the foot and horse artil-
lery of reserve to be placed on a war
footing.

The panicky rumors from Constanti-
nople and sanguine anticipations
from Russian sources, are the natural
results of the great Russian victory in
Armenia.

The Times' military critic says the
Russians have before Kars seventy
thousand men. Mukhtar pasha's army
at the time of the battle did not com-
prise more than sixty thousand men.
Among these were fourteen battalions
drawn from the garrison of Kars.

The Ottoman field army lost at
least one-third of its strength
in killed, wounded and captured.
Thus, after the garrison of Kars has
been depleted, a few battalions will re-
main available to retire upon Erze-
roum, and united with the troops of
Kind Ismael pasha, form the nucleus of
a new army for the relief of Kars.

Nor is it certain that time will be
given them for any serious attempt to
organize a fresh field army. The Grand
Duke Michael can safely leave forty
thousand in front of Kars, and with
the remainder press forward toward
Erzeroum, and if the accounts we re-
ceived of his numbers are correct, he
should be able to make this forward
movement, even after leaving Kars
closely blockaded, with at least twenty-
five thousand men. If he pushes on
rapidly there is no reason to believe
he will find a hostile force, even nu-
merically equal, to bar his way.

The Russian official bulletin from
Plevna says that the siege operations
are progressing. The Russian artiller-
ies fire in concentrated salvos, directed
simultaneously at given points. The
fire appeared to have considerable ef-
fect on the positions since the bom-
bardment has been carried on with
great violence. The Roumanians have
not yet occupied the second Griviza
redoubt, though the report is again
telegraphed that the Turks have evacu-
ated it.

Movements on the Lom indicate that
Suleiman pasha is concentrating in
front of the czarowitch's left wing,
with the intention of attacking as soon
as the weather permits, but the czar-
owitch's line is a long one, and the
Turks may break through at some
other points while feigning against the
left wing.

The Times' Slavofile letter of the 17th,
confirms the previous accounts of the
deplorable condition of the Russian
communications in consequence of
neglected roads.

LONDON, October 20.—The strike on
the Southern and Western railroads,
which has slightly interfered with
American mails, shows signs of a
collapse.

ST. JOHNS, N. B., October 20.—A fire
at Portland, New Brunswick, this
morning destroyed an entire square of
buildings.

THE TURK.

Ten Broeck, Tom Ochiltree and Parole Open the Maryland Meeting on Tues- day—The Course at Cincinnati and Nashville.

BALTIMORE, October 20.—The entries
for the great extra race, a thousand
dollars, with five hundred dollars a
chance each, for two and a half miles,
to be run on Tuesday, the first day of
the meeting of the New England
jockey club, closed with Ten Broeck,
Tom Ochiltree and Parole. Parole ar-
rived this morning in perfect condi-
tion. Ten Broeck and Ochiltree have
been on the track for several days,
taking their morning exercise in the
presence of large numbers of witnesses.
All three of these horses are certain to
start if no accident happens. The
stables are filled with the finest horses
of the country. The track is in per-
fect condition.

zott, 4, 3, 4. Time 2:41, 2:40, 2:47,

which has been on trial for the past

Almost a Fire.

Early yesterday morning just after
Colonel and Mrs. Swink had arisen,
the colonel stepped on a match lying
on the floor inside the fold of a mos-
quito bar, which was
